Call for Papers

The 2011 Australasian Conference on Robotics and Automation (ACRA'11) will be held on 7-9 December 2011 in Melbourne at the Clayton campus of Monash University.

Since 1999, ACRA has brought together Australian and New Zealand researchers and students in the fields of robotics, automation and mechatronics providing a forum to present a breadth of research activities to the wider Australasian community. This year's conference will be the 13th ACRA.

Prospective authors are invited to submit their papers in PDF format. Six to ten pages in the standard ACRA format (templates available from website) are allowed for each paper including figures. ACRA 2011 will be a single tracked conference (no parallel sessions or posters).
